

A Moment with the Mboligihe's

Spring 2015 Newsletter

Mboligihe Ndalu & his wife Yoana invest in the lives of the people in their remote community of Dungu, Democratic Republic of Congo (DRC). Their mission is to improve their lives spiritually, emotionally and physically through a variety of ministries that God has laid on his heart.

RTK Radio Ministry

Mboligihe is the **director for the RTK Radio ministry** in Dungu. The radio reaches the community with the Gospel message and with health & safety education. Mboligihe's vision is to expand to several surrounding communities. A grant for new equipment was submitted to the Tyndale Foundation last December and we are waiting a response. Additionally, during a recent visit, we discussed our vision with a governmental entity and they proposed funding the entire cost of a new radio station in return for letting them use it to make community announcements concerning the LRA. This is a miraculous gift that was totally unexpected! Praise God!!

RTK Radio Station

New Primary and Secondary Christian School

Mboligihe started a **New Primary & Secondary Christian School** in Dungu three years ago. Attendance at the school has already grown to over 900 students! The school is called the "Complexe Scolaire Pépinière De Dieu" (CSPD), translated "Complex Nursery School Of God". Its vision is to plant seeds (Christian students) and watch them grow! It consists of a primary, secondary and trade school. He organized a parent team to build 4 new classrooms to accommodate the growing student population. His son, Nathan, & daughter, Anisungu, are now also working at the school. Through the scholarship program, the Mboligihe's have made it possible for several men and women to get an education and return to Dungu as teachers at the school.

Primary Class

Secondary Class

Carpentry Workshop

During a recent visit, we met with engineers and began to develop plans to construct a multi-purpose hall for school assembly, chapel and other purposes.

Trauma Healing

Mboligihe conducts **trauma counseling training workshops** at area churches, and does many one-on-one counseling sessions with individuals needing spiritual & emotional care, including area pastors seeking counsel & advice.

Trauma Healing Session in Bujumbura

Trauma Workshop in Goma

Community Health Center

Mboligihe is on the **Managing Committee for the Dungu-May Health Center** which he helped build. Plans are being made to partner with ITEC, an organization founded by Steve Saint in Florida to bring in trainers in general dentistry and dental hygiene in the latter part of 2015. During a recent visit plans were made to procure and ship critical medical supplies to Dungu to enable the sustainability of an ongoing dental practice.

Health Center

Women's Ministry

Yoana recently finished her secondary education studies, passed the government exams, & graduated with highest honors. She is acting as **Matron to the girls at the new school**. Now that she has completed her studies, she will have more time to devote to **LIBAMA Women's Ministries**, a ministry that she initiated and oversees. Through LIBAMA, women are taught how to sew, garden, raise farm animals, make soap, etc. for sale in the marketplace. The women meet regularly for Bible study as well.

This ministry also provides **educational scholarships** for students at the new local school as well as for those students that show an aptitude for higher learning at the University level. Many of those students receiving scholarships have returned to the Dungu community upon completion of their study to contribute to the betterment of the community.

Please join us in supporting them in prayer and financially, should you feel led!
